

Agent SOP

Walmart Associates SOP: Table of contents

Subtab 1: Leaves Filing SOP

Steps for agents to submit time-off requests, including the required notification windows for both planned and emergency absences.

Subtab 2: Overtime Filing SOP

The process for agents to volunteer for OT and the specific steps required to log those extra hours for payroll accuracy.

Subtab 3: Schedule Request SOP

How to request shift swaps or temporary schedule changes and how to confirm they are reflected correctly on the Transition Sheet.

Subtab 4: Attendance SOP

Clear guidelines on punctuality, login expectations, and the proper way to notify RTA of any shift deviations.

Subtab 5: Disputes Filing SOP

Instructions for agents on how to file a formal dispute if they notice errors in their attendance logs or "Missing Punches" in Zoho.

Subtab 6: Line Assignment SOP

The manual process for requesting work in the team chat and interpreting emoji reactions for US, CA, or Pre-Item tasks.

Subtab 7: RO Line Assignment SOP

Specific procedures for the Read-Only workflow, detailing how these specific tasks are assigned and prioritized.

Subtab 8: System Issue Notification SOP

Protocol for reporting technical blockers or tool outages, including the exact information needed by the RTA to document the downtime.

Leave Management

Standard Operating Procedure (SOP) for Walmart Associates | Leave Management & Attendance

Objective: To provide you with a clear, step-by-step guide on how to manage your time off, ensure your leaves are documented correctly, and maintain a healthy work-life balance while supporting our operations.

1. Vacation Leave (VL): Planning Your Time Off

Use this for planned trips, rest, or personal errands.

- **Timeline:** Submit your request at least **7 days in advance**. You can plan up to **14 days** ahead.
 - **Note:** To keep things fair for the whole team, any requests filed more than 14 days before the start date will be automatically disapproved by RTA.
- **Availability Check:** Before filing, check the [Walmart VL Dashboard on Zoho](#). If a date is "at capacity" (full), look for alternative dates.

Employee Name	VL Count	Date
Diego de la Cruz Nival	2	Jan 29, 2026, Jan 30, 2026
Jerson Gregana Ganaganag	2	Jan 29, 2026, Jan 30, 2026
Michelle Manalo Ledesma	2	Jan 29, 2026, Jan 30, 2026
Rodel Tilong Portes	2	Jan 29, 2026, Jan 30, 2026
Naira Decipolo Alim	2	Jan 29, 2026, Jan 30, 2026
Loyd Dalayo Dela Peña	2	Jan 29, 2026, Jan 30, 2026
Eugene Jamo-ay Togonon	2	Jan 29, 2026, Jan 30, 2026
Gio Clem Lera Escala	2	Jan 29, 2026, Jan 30, 2026
Kathleen Claire Sumanoy Baga	2	Jan 29, 2026, Jan 30, 2026
Lucy-Victoria Penales Futralan	2	Jan 29, 2026, Jan 30, 2026

Date	Total Slot	Manila	Dumaguete	Total Approved Slots	Remaining Slots
Jan 29, 2026	25	7.00	10.00	17.00	8.00
Jan 30, 2026	24	8.00	11.00	19.00	5.00

Employee	Type of Request	Leave Date	Hours	Status	Added Time
Jan 29, 2026					
Arthur Jr Pajunar Sandigan	VL in Hours	Jan 29, 2026	8.00	Approved	Jan 27, 2026 09:51:57
Lucy-Victoria Penales Futralan	VL in Hours	Jan 29, 2026	8.00	Approved	Jan 26, 2026 11:41:30

- **The Process:**
 1. Check the dashboard for open slots.
 2. Sync with your **Team Lead (TL)** to ensure no critical tasks or "Critical Support" shifts are missed.
 3. Once your TL gives the "OK," submit your [application](#) on Zoho. Click on Status and

select VL in Hours and fill in the information needed such as reason and remarks, do not forget to upload supporting documents.

Note that if the VL's are in **3 or more days consecutive**, supporting documents are mandatory revealing the **STL or OM approval** of your leave.

Employee Leave Credits

Leave Request

Sick leaves must still be filed after the fact. Failure to complete a leave request after the fact through this form will be subject to a salary deduction for the applicable payout. As indicated in our handbook, employees' vacation leave should be filed at least seven (7) business days before the actual date of leave. It may still be filed after the fact but can be done by the upper management only. Your manager should have prior approval.

Name *

Jomari Urfe Ponpon Garces

From *

01/31/2026

To *

02/02/2026

Status *

-Select-

You can now upload a supporting document for your leave by clicking Upload Supporting Document button below.

Submit

Upload Supporting Document

Reset

- **Note:** You will file your leave in zoho with the attachment of approval from STL or OM, but final approval depends on the **RTA** based on real-time slot availability.

2. Sick Leave (SL): Prioritizing Your Health

Use this when you are unwell and unable to perform your duties.

- **Notification:** You must notify your TL and/or fill out the [Attendance Notification Form](#) on Zoho at least **2 hours before** your shift starts (or no later than 2 hours after it starts).

- **Why?** This prevents you from being tagged as **NCNS (No Call, No Show)**, which protects your APS points.

Attendance Notification Form

Employee *	-Select-	Employee ID	
Date	30 Jan 2026	Account	
Channel of Notification	Cliq	Site	
Type of Notification *	Absent	Schedule Start	
Absence Category	Sick	Schedule End	
Type of Illness	-Select-		

If your illness isn't listed, search and select 'Other' and a new field will appear for you to provide details.

Reason *

☐ WFH

Please check the WFH (Work From Home) box if you are a **Work from Home employee**. This will bypass the homepage notification for illnesses categorized as **Special, Moderate, or Severe**, since clinic visits for these cases are only mandatory for **On-site employees**.

Note: For **WFH** employees, once you return to work, make sure to submit your **Medical Certificate** for your APS Points under the **My APS Report**.

Kindly send your **Fit-to-Work Certificate** to the appropriate clinic email based on your site:

- **Dumaguete:** healthdumaguete@eccccontactcenters.com
- **Manila:** healthmanila@eccccontactcenters.com

- **The 2-Day Rule:** If you are sick for **2 or more consecutive days**, you must provide a **Medical Certificate** when you return to work.
- **Filing:** Once you have recovered, file your SL via the [Zoho Leave Request form](#). Be ready to upload your medical documents for the application to be processed.

3. Bereavement Leave: Support in Times of Loss

Use this for the passing of an immediate family member.

- **Entitlement:** Typically **3–5 days**, depending on current policy.
- **Immediate Needs:** If you are currently on shift and receive the news, notify your TL immediately. They will help you coordinate with RTA/Ops for an **Emergency Leave** so you can log off right away.
- **Documentation:** You can file for Bereavement Leave on Zoho via the [Leave Request page](#). Please upload the **Death Certificate** to Zoho for HR approval.

Bereavement Leave: Required Documents & Process

Step 1: Gather Required Documents

A Stamped Death Certificate is Always Required

The official Death Certificate must have the Local Civil Registry (LCR) stamp.

 Parents	 Employee's Birth Certificate
 Spouse / Parents-in-Law	 Employee's Marriage Certificate
 Direct Grandparents	 Employee's Parents' Birth Certificate
 Legal Guardian(s)	 Proof of Legal Guardianship (e.g., court order)

Step 2: Follow the Submission Process

1. Send an Initial Notification Email to HR

Include your name, dates of leave, and relationship to the deceased in the email.

2. Submit a Formal Request in Zoho

After HR reviews your email, upload the stamped Death Certificate to your formal request.

Your Information is Kept Confidential

All submitted documents are handled securely and with the utmost confidentiality by HR.

Extraordinary Customer Experience

4. Solo Parent Leave: Parental Support

Specifically for our colleagues registered as solo parents.

- **Eligibility:** 7 days per year, available once you have reached regularization on the company.
- **Validation:** Ensure your **Solo Parent ID** is updated and not expired before you file.
- **Filing:** Always tag your leave as "[Solo Parent Leave](#)" in the system—do not use the VL category, as these are separate credits.

Name * Julie Ann Irene Gaviola Gumahad x -

- **Notice:** For planned events (school meetings, etc.), please give at least **48 hours'** notice so the team can adjust.

Your Guide to Solo Parent Leave

How to Apply for Your Leave

Apply via Zoho 7 Days in Advance

You must attach a copy of your Solo Parent ID to your application.

Emergency Leave is Possible Without Prior Notice

Approval and proper justification are required for emergency cases.

What Qualifies as an Emergency?

A child's hospitalization

medical emergencies

or natural disasters affecting their welfare.

Key Rules & Conditions

7 Paid Working Days Per Year

This leave is granted annually to eligible solo parents.

Use It or Lose It

Leave is non-cumulative and cannot be converted to cash if unused.

Eligibility Depends on Your Status

If you are no longer a solo parent, you become ineligible for this benefit.

Leave Type Quick-Reference

Leave Type	Your Primary Responsibility	Timeline
VL	Check Dashboard & consult TL	7-14 days notice
SL	Notify TL & file upon recovery	Post absence
Bereavement	Notify TL & upload Death Cert	Immediate (for exit)
Solo Parent	Keep ID updated & tag correctly	48 hours notice preferred

6. Retracting a Leave

If your plans change and you no longer need the time off.

- **When to Act:** You must notify your TL and RTA at least **24 hours before** the leave was supposed to start.
- **System Steps:** 1. Go to [Leave Request System > My Records > For Approval](#).
2. Select "**Retract**."
- **Requirement:** RTA can only approve retractions if the request is made **before** the actual date of the leave.

Overtime Filing SOP

Standard Operating Procedure (SOP) for Walmart Associates | Client-Mandated Overtime (OT): Agent Participation & Execution

1. Purpose/ Scope

This procedure outlines how Agents can volunteer for and execute **Client-Mandated Overtime (OT)**. It ensures that when there is a sudden spike in customer volume, you know exactly how to sign up, where to monitor for instructions, and how to ensure your extra hours are recorded for payroll.

2. Roles & Responsibilities

Role	Responsibility
Agent (OT Taker)	Monitors communication channels, volunteers for slots, and maintains 100% productivity during OT hours.
Team Lead (TL)	Announces OT needs to the team and collects the list of volunteers.
RTA / Operations	Validates the roster and ensures OT hours are active in the monitoring tools.

3. Tools / Requirements

- **Workforce Management:** InContact Tool (to remain in production).
- **Communication:** Zoho Cliq, MS Teams, or Email.
- **Monitoring:** ECE IRR Realtime Dashboard (monitored by RTA).

4. Procedure (Steps)

Step 1: Monitor the OT Announcement

When the Client identifies a volume spike, your Team Lead will post an "OT Call" in your team's chat group or via email.

- **Action:** Check the message for the specific **Line of Business (LOB)** affected and the number of hours/agents needed.

Step 2: Volunteer for the Shift

If you are available to work, reply to the TL's post immediately.

- **Action:** Provide your name and the specific hours you are available to extend.
- **Example:** *"I am available for 2 hours of OT after my shift ends at 5:00 PM."*
- **Note:** Selection is often based on your proficiency in the specific queue experiencing the spike.

Step 3: Confirmation and Log-in

Wait for a "Go Signal" from your TL before beginning work.

- **Action:** Log into the **InContact Tool**. Stay in a working aux status to ensure the volume is being cleared.

Step 4: Execution & Mandatory Breaks

While on OT, you must maintain high productivity.

- **Action:** If your OT extends your total workday significantly, coordinate with your TL to schedule any additional rest breaks. Do not log out until your approved OT window is complete or until you receive a "Cease OT" notification.
Note: *There is a 4 hour max limit every shift date.*

Notes / Tips:

- **Productivity is Key:** RTAs monitor adherence in real-time. Being on OT means being "in production."

5. Exceptions & Escalation

Issue	Action	Escalate
Queue remains high after OT	Continue production as usual.	TL will coordinate with RTA for "Cross-LOB" support.
Personal Emergency	If you must leave during your OT, notify your TL immediately.	TL will update RTA to find a replacement.

6. Quality Check / Expected Result

- **Verification:** Check your InContact status to ensure you are correctly logged in and "Active."
- **Result:** The volume spike (backlog) decreases, and Service Level Agreements (SLA) return to green.

7. Records / Outputs

- **Payroll Export:** This process ensures your approved OT hours are reflected in your adjusted timesheet.

Schedule Request SOP

Standard Operating Procedure (SOP) for Walmart Associates | Operations Schedule Synchronization & Shift Updates (Schedule Change Request)

1. Purpose/ Scope

To provide Agents with a streamlined process for updating their official schedules in Zoho. This procedure ensures that your attendance records, payroll, and adherence metrics accurately reflect the shifts assigned in the Transition Workbook, preventing unnecessary attendance points or "Mismatch" errors.

2. Roles & Responsibilities

Role	Responsibility
Agent	Initiates the formal request in Zoho and ensures all shift details match the Transition Workbook.
Team Lead (TL)	Reviews and approves the request to validate it against operational needs.
WFM / RTA	Performs final validation and plots the approved schedule into the master system.

3. Tools / Requirements

- **Zoho People:** The primary system for filing shift change requests.
- **Transition Workbook:** The source of truth for your assigned schedule and rest days.
- **Imgur:** (Optional) For hosting and linking supporting screenshots.

4. Procedure (Steps)

Step 1: Initiate the Schedule Change Request

Navigate to the [My Schedule Change Request](#) page within Zoho/ECETrack.

- **Action:** Click the **green plus sign (+)** located in the upper right-hand corner to open a new request form.

Step 2: Complete Shift Details with Precision

Fill out the form accurately. Discrepancies between this form and the Transition Workbook will lead to a rejection.

- **Full Name:** Enter your registered name.
- **Requested Date Range:** Specify the **FROM** and **TO** dates for the new schedule.
- **Working Hours:** Select either **8 or 10 hours** based on your specific LOB requirement.
- **New Time Schedule:** Enter the **START** and **END** times. **Crucial:** These must mirror the times listed in the Transition Workbook.
- **Rest Days:** Check the boxes for your assigned days off according to the Workbook.
- **Reason/Note:** Provide a clear explanation for the change. You may include an Imgur link for any supporting screenshots.

Step 3: Submission and Interim Period

Double-check all entries before hitting **Submit**.

- **Action:** Continue to follow your **current/old schedule** until you receive a notification that the new request has been officially approved.
- **Monitoring:** Regularly check your Zoho notifications or official communication channels (Cliq/Email) for status updates.

Step 4: Execute the Approved Schedule

Once the status changes to **"Approved,"** strictly adhere to the new timings.

- **Action:** Update your personal alarms or reminders. Any deviation from this approved window must be reported to your Team Lead immediately to avoid disciplinary action.

Notes / Tips:

- **Timelines:** Always submit requests within the prescribed window to allow WFM enough time for validation.
- **Accuracy:** One wrong digit in the "Start Time" can result in a "Late" tag. Cross-reference with the Transition Workbook twice!

5. Exceptions & Escalation

Issue	Action	Escalate
Request Rejected	Review the rejection note (usually a data mismatch).	Re-file or consult your TL .
System Glitch/No Plus Sign	Refresh the page or clear browser cache.	Report to IT/Support .
Urgent/Last Minute Move	File the request immediately after the verbal instruction.	Notify RTA for manual override.

6. Quality Check / Expected Result

- **Successful Sync:** Your "Shift" view in Zoho should match the Transition Workbook, and your check-in/out times should no longer trigger "Mismatch" alerts.

7. Records / Outputs

- **Approved Shift Change Log:** Digital record in Zoho used for payroll auditing.
- **WFM Validation Report:** Final roster update in the master scheduling tool.

8. References

- **Employee Handbook:** Section on Attendance and Punctuality.
- **Attendance Policy:** Guidelines on unauthorized schedule changes and penalty points.

Attendance SOP

Standard Operating Procedure (SOP) for Walmart Associates | How to Submit an Attendance Notification in Zoho

[Step-by-step Guide for Submitting of Attendance Notification](#)

1. Purpose/ Scope

This procedure ensures that all absences and tardiness are communicated and documented formally. Following this guide prevents you from being tagged as **No Call, No Show (NCNS)**, protects your attendance record from unnecessary disciplinary points, and allows the RTA team to adjust staffing levels in real-time.

2. Roles & Responsibilities

Role	Responsibility
Agent	Provides timely notice of absence/lateness and submits the Zoho form accurately.
Immediate Supervisor / RTA	Acknowledges the notification and coordinates coverage; may file on behalf of the agent in emergencies.
WFM / RTA	Plots the notification into the master schedule for real-time tracking.

3. Tools / Requirements

- **Zoho Creator:** The official platform for the Attendance Notification Form.
- **Communication Channels:** Batphone, Cliq/Direct Message, or Email.

4. Procedure (Steps)

Step 1: The Initial Alert (Communication)

As soon as you realize you will be late or absent, you must inform your immediate supervisor or RTA.

- **Timeline:** Notifications must be made within the window of **2 hours before** up to **2 hours after** your scheduled shift start.
- **Warning:** Failure to communicate within this window is automatically considered an **NCNS**, which carries heavier disciplinary consequences.

Step 2: Access the Zoho Attendance Notification Form

Formalize your notification by recording it in the system.

- **Action:** Log in to **Zoho Creator / Zoho Attendance Tool** and select the [Attendance Notification Form](#).

Step 3: Complete the Required Details

Ensure all fields are filled out accurately to avoid your submission being tagged as "Unexcused":

- **Employee Name:** Your full registered name.
- **Channel of Notification:** Select how you first reached out (e.g., Batphone, Direct Message, Email).
- **Type of Notification:** Choose **Absent** or **Late**.
- **Reason:** Select the most accurate category (Personal, Medical, Emergency, etc.).
- **Expected Return Date:** Specify when you will be back in production.
- **Additional Notes:** Add specific details or mention if you have supporting documents (like a Medical Certificate) to upload later.

Step 4: Post-Submission Responsibilities

Submitting the form is only the first half of the process.

- **Action:** Stay reachable via your chosen communication channel for any follow-up questions from your TL or Operations.
- **Action:** Follow any specific instructions given by your TL regarding shift make-ups or documentation requirements.

Notes / Tips:

- **Emergency Filing:** If you are physically unable to access Zoho (e.g., no internet or medical emergency), ensure your supervisor is aware so they can file the form on your behalf.
- **Audit Ready:** All records are audited daily. Ensure your "Reason" matches the documentation you provide later.

5. Exceptions & Escalation

Issue	Action	Escalate
Zoho System is Down	Take a screenshot of the error and notify your TL immediately.	RTA for manual logging.
Extended Absence	If you will be out for more than one day, update your "Expected Return" in the form.	TL / STL / OM
Missed Notification Window	If you notify after the 2-hour post-shift window, explain the delay clearly.	Operations / WFM for case-by-case review.

6. Quality Check / Expected Result

- **Successful Notification:** You receive a confirmation of submission, and your status is updated in the RTA's real-time tracker, preventing an NCNS tag.

7. Records / Outputs

- **Attendance Notification Log:** A digital record in Zoho used for attendance audits.
- **RTA Intraday Report:** Real-time headcount adjustment based on your submission.

8. References

- **Employee Handbook:** Section on Attendance and NCNS Policies.
- **APS (Attendance Points System) Guidelines.**

Disputes Filing SOP

Standard Operating Procedure (SOP) for Walmart Associates | Agent Timekeeping & Break Tagging Disputes

1. Purpose/ Scope

This procedure provides a clear framework for you to contest inaccuracies in your time logs or break taggings. Whether caused by system glitches or tool errors, this process ensures your actual work hours and productivity are recorded fairly.

Note: Accuracy is vital as these adjustments directly impact your payroll and performance metrics.

2. Roles & Responsibilities

Role	Responsibility
Agent (Disputant)	Files the dispute within the 5-day window and provides high-quality, timestamped proof.
RTA (Approver)	Acts as the "Gatekeeper." Validates proof against system logs (IC stamps) and approves/rejects based on evidence.
Team Lead (TL)	Provides a "Vouch" only as a last resort if technical proof is unavailable.

3. Tools / Requirements

- **In-Contact (IC) Logs:** The primary source for timestamp verification.
- **Zoho Dispute:** The platform where disputes are filed.
- **Screenshot Tool:** To capture errors, timestamps, or connectivity issues.

4. Procedure (Steps)

Step 1: Identify the Dispute Type

Determine what needs correcting before filing:

- **Break Disputes:** Used for incorrect taggings during breaks, meetings, or coaching sessions. The goal is to prove you returned to work on time.
- **Time Log Disputes:** Used when Zoho fails to capture your actual Login or Logout time due to tool or connectivity issues.

Step 2: Gather Valid Proof (Hierarchy of Evidence)

RTAs do not approve disputes based on explanations alone; you **must** provide proof. RTAs follow this priority list—higher-ranked proof is more likely to be approved without hesitations:

1. **IC (In-Contact) Stamps:** The most reliable evidence.

Request for IC stamps: Navigate on Cliq and find the specific thread for [IC screenshot request](#).

Format for request:

Requesting IC Stamp:

Date:

Shift:

Reason:

2. **Availability Messages:** Chat timestamps showing you messaged "Back from break" or "Logged in."
3. **Issue Tracker:** Screenshots of the tracker with visible timestamps.
4. **Error Screenshots:** Visible proof of login errors or system downtime (Date/Time must be visible).
5. **Team Lead Vouch:** A confirmation from your TL (Use this *only* if steps 1-4 are impossible).

Step 3: Filing the Dispute

Submit your request in the Zoho Dispute Module within **5 days** of the occurrence.

- **Action:** Ensure the **Time In** and **Time Out** you request match your proof *to the minute*.
- **Checklist:** Verify the Date, Scheduled Shift, and Working Hours (8 or 10) are all correct.
- **Reason:** Choose the reason that best fits your evidence (e.g., "Tool Issue" vs. "System Downtime").

Step 4: RTA Review and Outcome

The RTA will cross-reference your submission against the **RTA Validation Checklist**.

- **Approval:** If your proof is clear, timestamped, and matches your request.
- **Rejection:** If proof is missing, unclear, filed after 5 days, or if the timestamps do not match the requested adjustment.

Notes / Tips:

- **5-Day Rule:** Any dispute filed after 5 days will be automatically rejected. For late filings, you must be redirected to **Lemuel Ching**.
- **Quality Matters:** A clear screenshot of an IC Stamp is worth more than a long written explanation.

5. Exceptions & Escalation

Issue	Action	Escalate
Dispute Rejected/Needs Correction	Review the RTA notes, fix the error, and re-submit.	Consult your TL for guidance.
Missing Proof for System Outage	Use the "TL Vouch" method if it was a site-wide issue.	TL to coordinate with RTA .
Repeated System Errors	Keep a log of all incident tickets.	Escalate to IT and Operations for a permanent fix.

6. Quality Check / Expected Result

- **Successful Dispute:** Your Zoho attendance record is updated to reflect your actual working time, ensuring your productivity (Adherence) and Payroll are correct.

7. Records / Outputs

- **Dispute History Report:** A digital record of all approved/rejected adjustments.
- **Updated Payroll Export:** Reflects the corrected hours for the cutoff.

8. References

- **Attendance & Timekeeping Policy.**
- **Payroll Processing Guidelines.**

Line Assignment SOP

Standard Operating Procedure (SOP) for Walmart Associates | Trust & Safety: Queue Prioritization, Assignment, and LATTE Monitoring

1. Purpose/ Scope

This procedure ensures that US, CA, and Pre-Item tasks are handled with the correct urgency to meet our Service Level Agreements (SLA). As an agent, this guide helps you understand how tasks are assigned to you based on your training, how to request work via chat, and the importance of maintaining an "Online" status in LATTE.

2. Roles & Responsibilities

Role	Responsibility
Agent	Requests lines via chat, follows SLA priority, stays "Online" in LATTE, and processes assigned tasks.
RTA / Support	Monitors SLA urgency, assigns lines manually or via LATTE upload, and monitors agent idle time.
Team Lead (TL)	Supports agents in meeting SLAs and follows up on unresponsiveness reports from RTA.

3. Tools / Requirements

- **ServiceNow Dashboard:** Used to view live queue volume and priority levels.
- **Chat Channel:** [\[WMT - Trust & Safety\]](#) for work requests.
- **Latte Tool:** Used for automated line assigning.

4. Procedure (Steps)

Part A: Requesting and Receiving Work (Manual)

Step 1: Requesting Lines

When you are ready for a new batch of work, post your request in the **[WMT - Trust & Safety]** team chat.

- **Action:** Clearly state your availability and which queues you are trained for (US, CA, or Pre-Items).

Step 2: Understanding Your Assignment (Emoji Reactions)

The RTA will assign lines based on which queue (US or CA) is closest to an SLA breach. Once assigned, the RTA will react to your message with an emoji.

- **Action:** Look for these emojis to know what work you have been given:
 - US flag = **US Line** assigned.
 - CA flag = **CA Line** assigned.
 - Check mark = **Pre-Item** assigned.

Step 3: Processing by Priority

Always work your assigned lines based on the following SLA Tiering:

1. **P1:** Must be completed within **2 Hours**.
2. **P2:** Must be completed within **12 Hours**.
3. **P3:** Must be completed within **24 Hours**.
4. **P4/Pre-Items:** Must be completed within **48 Hours**.

Part B: LATTE Volume & Status Monitoring

Step 4: Ensuring "Online" Status

Receiving Automated Assignments In this method, assignments are pushed to you automatically through the tool rather than through chat requests.

- **Action:** Monitor your LATTE interface for incoming line assignments.
- **Action:** Once a line is assigned by the tool, begin processing immediately following the SLA priority rules mentioned in Step 3.
- **Note:** You do not need to request lines in the chat if the LATTE tool is actively pushing assignments to your dashboard.

The RTA uses the LATTE Admin Dashboard to monitor queue health and agent activity.

- **Action:** Ensure your status is **ONLINE** in LATTE at all times during production.
- **Action:** If you are tagged as **IDLE**, the RTA will reach out via the **Shoutout Channel** and CC your Team Lead.
- **Note:** Unresponsiveness while idle may result in an entry in the **WFM Logs** for documentation.

Notes / Tips:

- **Equal Priority:** US and CA lines are equally important; the "Tie-breaker" is always the SLA clock.
- **Pre-Items:** These can only be handled by Pre-Item trained agents. Do not attempt these if you haven't completed the specific training.

5. Exceptions & Escalation

Issue	Action	Escalate
Unresponsive Agent	RTA reaches out via the Shoutout Channel.	If no reply, file a WFM Log entry.
No Volume	Inform RTA via the Latte Meet or send a DM.	Notify RTA for re-upload
RRtask not visible in SNW	Complete task on latte to move on to another set of assignments	Inform RTA for acknowledgment via incall messages

6. Quality Check / Expected Result

- **Success:** All P1 lines are cleared within the 2-hour window.
- **Success:** Agents show 100% adherence to their "Online" status in LATTE.

7. Records / Outputs

- **ServiceNow Volume Exports:** Daily record of incoming tasks.
- **WFM Logs:** Documentation of idle time and unresponsiveness.
- **LATTE Queue Statistics:** Summary of completed vs. pending tasks.

8. References

- **Trust & Safety Training Manual.**
- **SLA Priority Matrix (P1-P4).**

RO Line Assignment SOP

Standard Operating Procedure (SOP) for Walmart Associates | RO Claim Assignment & Brand-Specific Routing

1. Purpose/ Scope

This procedure outlines how Rights Owner (RO) claims are prioritized and assigned. It ensures that regardless of whether you are working on US or CA queues, the most urgent claims—specifically **Counterfeit** and **Oldest Created Dates**—are handled first, while respecting special routing rules for specific brands.

2. Roles & Responsibilities

Role	Responsibility
RO Agent	Requests claims via the designated thread, follows specific brand rules (Apple/Stripe), and processes assigned claims.
RTA / Support	Monitors volume, shares counts, and manually assigns claims using the "Locked To" field and emoji confirmations.
Apple Dedicated Agent	Specifically handles all Apple-related brand claims.

3. Tools / Requirements

- **RO Portal/System:** For claim processing and "Locked To" updates.
- **Chat Channels:** Designated threads for **US Claim Requests** and **CA Claim Requests**.

4. Procedure (Steps)

Step 1: Start-of-Shift & Low Volume Protocol

At the beginning of the shift, the RTA will broadcast the current US and CA claim counts.

- **Action:** If the RTA announces **No Incoming Volume**, do not remain idle.

- **Action:** Immediately pivot to working on your **Pending Claims** or any **Unprocessed Emails** in your inbox to maintain productivity.

Step 2: Requesting Claims via Thread

You must never cherry-pick claims. All work must be requested through the official channels.

- **US Requests:** Post in the [\[Claim request Thread here\]](#) 
- **CA Requests:** Post in the [\[CA Thread Claims\]](#)
- **Requirement:** Wait for the RTA to react with an **Emoji** to your message. This emoji is your official confirmation that a claim has been locked to you.

Step 3: Understanding Prioritization & Assignment

The RTA assigns claims based on a specific hierarchy. Even though all types have an **8-hour SLA**, they are not treated equally.

1. **US and CA Queues:** Treated with equal importance.
2. **Claim Hierarchy:** **Counterfeit** claims are assigned first, followed by Copyright, Trademark, and Patent.
3. **Age:** The oldest "Created Date" is always prioritized to prevent SLA breaches.

Step 4: Following Brand-Specific Rules

Certain brands have mandatory routing that overrides the standard flow:

- **Apple Brand:** If you are not an "Apple Dedicated Agent," you cannot be assigned these claims.
- **StripeDevice:** These are automatically routed/assigned to **Teresa Lin (t0l013q)**.

Step 5: Receiving the Assignment

The RTA will perform the following in the system:

1. Open the claim and update the **"Locked To"** field with your name.
2. Click **Save** and select **Start Review**.
3. **Your Action:** Once you see the emoji reaction in the chat, refresh your dashboard to see the locked claim and begin your review immediately.

Notes / Tips:

- **System Assignments:** If you work on a claim that was automatically assigned by the system (instead of requested via thread), an **NTE** will be issued for documentation.
- **Manual Locks:** Always verify the claim is "Locked To" you before you start the "Start Review" process to avoid duplicate work.

5. Exceptions & Escalation

Issue	Action	Escalate
Claim Assigned to Wrong Person	Do not process. Notify the RTA to unlock the claim.	RTA
Urgent SLA (Under 1 Hour)	Flag the claim in the chat immediately.	RTA / TL
Apple Claim in General Queue	Do not assign to general agents.	Escalate to RTA for the transferring process.

6. Quality Check / Expected Result

- **Compliance:** 100% of Apple claims are handled by dedicated agents.
- **SLA Health:** Zero claims exceed the 8-hour limit, with Counterfeit claims resolved fastest.

7. Records / Outputs

- **NTE Records:** For tracking unauthorized system-assignment work.
- **Locked To Logs:** Audit trail of who handled which Rights Owner claim.

System Issue Notification SOP

Standard Operating Procedure (SOP) for Walmart Associates | System Issue Reporting & Item Transfer Protocol (Agent View)

1. Purpose/ Scope

This procedure provides you with a clear roadmap for handling "Ghost" or "Erroring" items in ServiceNow (SNW). When an item becomes non-actionable or refuses to leave your queue, these steps ensure the item is properly transferred to the RTA team, keeping your productivity metrics clean and preventing queue inflation.

2. Roles & Responsibilities

Role	Responsibility
Agent	Identifies the error, captures evidence, and initiates the reporting process with the Team Lead (TL).
Team Lead (TL)	Validates the issue, ensures the Google Form is filed, and supervises the item transfer.
On-shift RTA	Receives the "Ghost" item and confirms the transfer was successful in the system.

3. Tools / Requirements

- **SNW (ServiceNow):** To perform the item review and transfer.
- **Google Reporting Form:** [\[Official Reporting Link\]](#)
- **Internal Chat (Cliq/Slack):** For real-time coordination with your TL and the RTA.

4. Procedure (Steps)

Step 1: Identify "Non-Actionable" Items

Recognize when an item needs to be reported. Look for these three scenarios:

- **Ghost Items:** You completed the task, but it remains in your bucket.

- **Erroring Items:** The system shows a failure message or behaves abnormally when you try to process it.
- **Active Queue Mismatch:** The item is marked "Done" but refuses to disappear from your active view.

Step 2: Perform a Technical Reset

Before reporting, try a quick self-audit to ensure it isn't a temporary lag.

- **Action:** Refresh your SNW workspace.
- **Action:** Check if there is a known delay from another department.
- **Result:** If the item is still stuck after a hard refresh, move to Step 3.

Step 3: Capture Evidence & File the Report

You must document the bug before the item is moved. This data is used to report system bugs to the client.

- **Action:** Access the [Google Reporting Form](#).
- **Required Data:** Enter your name, the **Item ID**, a brief description of the error, and an attached **Screenshot** of the issue.

Step 4: Execute Item Transfer in SNW

With your TL's guidance, move the item out of your queue so you can continue working on active tasks.

- **Action:** Open the stuck item in SNW and select the **Transfer** action.
- **Target:** Assign the item to an **On-shift RTA**.
- **Fallback:** If no RTA is available, transfer the item to **John Vergara – Vendor (vn5774u)**.

Step 5: Confirm Completion

Ensure the handoff is finalized so the item doesn't "bounce back."

- **Action:** Your TL (or you, if instructed) must message the receiving RTA via Cliq: *"I have transferred Item ID [Number] to you; please confirm if visible."*
- **Verification:** Check your SNW dashboard to confirm your queue is now clear of the reported item.

Notes / Tips:

- **Don't Skip the Form:** The Google Form is the only way the RTA team can prove to the client that a system bug exists.
- **Real-time Sync:** Always communicate the transfer immediately; RTAs cannot approve what they cannot see.

5. Exceptions & Escalation

Issue	Action	Escalate To
Transfer Blocked	Attempt to "Allow" or "Block" the item first. Take a screenshot of the block error.	RTA / RTA Lead
Google Form is Offline	Keep a manual log (Word/Excel) with the Item ID and Reason.	RTA Team
Item Still Visible	Re-verify the Item ID and ensure "Submit" was clicked in SNW.	TL / RTA Lead
The "Returning" Ghost	Flag items that keep appearing in your queue after being transferred.	RTA Lead

6. Quality Check / Expected Result

- **Traceability:** Every "Ghost" item has a matching entry in the Google Form.
- **Queue Health:** Your active queue only contains items you can actually work on, ensuring your AHT and productivity are accurate.

7. Records / Outputs

- **Google Form Entries:** The master audit log for system bugs.
- **SNW Audit Trail:** The history log showing the item moving from your ID to the RTA.
